

MMG5_solveDefmetregSys

```
graph LR; A[MMG5_solveDefmetregSys] --> B[MMG5_eigensym]; A --> C[MMG5_sys33sym];
```

The diagram illustrates a functional decomposition. A central box labeled 'MMG5_solveDefmetregSys' has two outgoing arrows pointing to 'MMG5_eigensym' and 'MMG5_sys33sym'. The central box is shaded gray, while the two target boxes are white with black borders.

MMG5_eigensym
